4. Super thin LED Lightbar with speaker LTF8685
1). Advantages:
1. CE and ISO quality standard.
2. 1 Year warranty
3. Prompt Delivery.
4. Super thin LED Lightbar with speaker LTF8685 for Police Car
2). Specification:
1.Item No.: LTF8685
2.Input voltage: 12VDC/24VDC
3.Light type: 0.25/0.5/1.0 watt led
22 pcs led/module,16 modules
22 pcs led/module,2 modules(two sides)
4.With or without siren and speaker
5.Lens material : polycarbonate(PC)
6.Dome colour available: Red,blue,amber,clear
7.Operating temperature: 40 below zero to 55 (centigrade)
8.Installation : Fixed on the car with the screws
9.Bracekt material: stainless
10. Cable :4 meter of cable provided
11.About 15 flash patterns current,we can design according to your demands.no extra cost about the patterns.
12.Carton size: 133*42*30CM

detail:

super bright series long row warning lamp, the super thin lamp body has greatly reduced the wind resistance during the driving of car. it adopts the super bright LED light source from USA Liuming company, it has such characteristics as long service life, high illuminating efficiency, strong background light resistance and powerfull penetrating ability, good warning effect and wide application.

1. The lamp cover is made of high quality polycarbonate(PC) material with good impact resistance and hardness of more than 4H, the color is fresh and the transparency reaches more than 9 level.

2. the sealing performance is excellent and the waterproof and dustproof performance can reach
IP53 level international standard.

3.22 groups of super bright LED lamps are distributed annularly to realize the 360 degree, warning effect from front, back, left and right.
