

Product Name:MD1800 Hand held metal detector
Model Name:MD1800
Catalog:Metal Detector

detail:

Optimum sensitivity with automatic retuning - never needs adjusting
Accurate detection of all ferrous, non-ferrous and stainless steel
weapons, contraband and other metallic objects

Elongated profile offers 360' detection coverage plus tip pinpointing
for easy scanning from head to foot

Easy and convenient to use with one-touch button and three-color
LED lights

Clear audible or Silent / Vibrate LED alarm signal

Rugged injection molded construction including structurally isolated
coil for added impact absorption

Large 9.5" scan area allows thorough scanning with minimum
passes

Ergonomically designed grip fits comfortably in virtually every hand

Easy ON / OFF battery cover

9V battery (included) operation

Power switch and LEDs positioned for easy access and high
visibility

Width

3.25" (8.3 cm)

Thickness

1.625" (4.13 cm)

Length

16.5" (42 cm)

Weight

17.6 oz. (500 g)

Product Name:GRT1800 Hand held metal detector

Model Name:GRT1800

Catalog:Metal Detector

detail:

Key specification of GARRETT

- 1.Adjustable sensitivity
- 2.One switch operation
- 3.Led lights only,red Led and sound alarm
- 4.Blinking green indicator when the unit is working properly
- 5.Low sensitivity indication,amber led will be on
- 6.One 9V battery required,(Not including in the price)
- 7.Operating frequency: 52KHZ+/-10%(Sine wave)
- 8.Audio tone changes as the metal size changes, .It can distiguish the size of metal according to the sound from low to high. At the same time, this model also can locate the place of the metal , it is also the different from other security handheld metal detectors
- 9.Heavy duty frame ,rugged ,high-impact case with reinforced coil compartment.ABS materials
- 10.Detects medium sized pistol from 9` , ;arge knife from 6` , razor blade and box cutter from 3` ,foil-wrapped drugs and tiny jewelry from 1` .

Momentary push button temporarily eliminates detection of nearby ambient metal such as metal

16.5" (42 cm)

Weight

17.6 oz. (500 g)

Product Name:GC1001 Hand held metal detector

Model Name:GC1001

Catalog:Metal Detector

detail:

Function features:

- *Simple and convenient operation
- *Fairly low consumption of battery
- *Extremely high detecting speed
- *Extremely high accuracy and sensitivity
- *The battery management system continuously monitors the deficiency of power and voltage.
- *Most adapting to the man's hearing difference, it will generate different alarm tones depending on the size and distance of metal.
- *The alarm sound will last when finding metal and continuously lock its correct position.
- *The probe will give an alarm easily when a pin is 35mm to it.

Product parameters:

External dimensions: Length 395 mm*140 mm

Product weight: 20/box, 13 kg/box

Unit gross weight: 0.5 KG/1 PCS

Working power supply: 6F22ND 9 V battery (alkaline battery, rechargeable battery)

Alarm modes: Simultaneous sound and light alarm

Product Name:MD1022 Hand held metal detector

Model Name:MD1022

Catalog:Metal Detector

detail:

Features:

Detecting part in rod shape, suitable for application in dead angle position where other detectors can not go

Rotating magnetic field design, working in 360 degree range

Capable for accurate detecting for tiny metal objects, including ferrous and non-ferrous objects

Easy operation, self-diagnosis mode, automatic identifying environment and automatic balancing function

Buzzer plus LED alarm mode and vibration alarm mode available

Handle design following ergonomics principle is operator-friendly

Auto battery power testing upon power-on, with yellow LED indicating low battery power

Control part: Three modes available: on, off and vibration

Indicator part: Red LED indicates alarming, green LED indicates power supply and yellow LED indicates insufficient battery voltage

9V battery (not including in the price)

Specifications:

Product dimension: 400 x 80 x 35mm

Packing dimension: 44.5 x 26.5 x 52cm

Product weight: 30 pieces/carton, 13.3kg/ carton

Working power supply: 6F22ND 9V battery (alkaline and rechargeable battery)

Alarming mode: Alarming with buzzer and LED, and vibration synchronized

Product Name:GP140 Hand held metal detector

Model Name:GP140

Catalog:Metal Detector

detail:

The GP140 Enhanced Hand Held Metal Detector is a high sensitivity device designed to detect magnetic and non-magnetic metal masses.

It can be used for detecting weapons, detonators or other small pieces of metal carried by people, concealed in baggage or in correspondence.

Its bidirectional detection probe allows either its lower or upper side to detect metals evenly. The special shape of the sensitive surface makes operation of the device easy, unlike other portable metal detectors

Technical features

Product Name:MD2002
Model Name:MD2002
Catalog:Metal Detector
detail:

Product Name:MD1011B

Model Name:MD1011B

Catalog:Metal Detector

detail:

Key features:

1. Ultimate sensitivity: detects a pin from 60mm distance; one coin from 100mm; 6 inches
knife from 180mm distance; 64model hand gun from 195mm.
2. Elegant appearance, super sensitivity.
3. Rigid for tough service, no damage through free dropping at one meter altitude.
4. Large 10` scan suface for quick, thorough scanning.
5. 2 kinds of alarm method: buzzer & LED alarm; vibration & LED alarm.
6. Adjustable sensitivity, easy use
7. Low battery light/ Charge light gives a timely alert
8. After installing chargeable battery (*Not provide) in the battery compartment, you can charge the device directly.
9. Warranty: 12 months, parts and labor.

Tech specs

1. Operating Temperatures: -15C to 55C
2. Power: 9V (6F22) standard or rechargeable battery (*Not Provide)
3. Frequency: 25 kHz
4. Voltage: 9V (6F22)
5. Indicators: Speaker; LED Alert Lights
6. Controls: Off Switch; Vibration Alarm Switch; Sound Alarm Switch; Sensitivity Adjuster
7. Battery: Single 9 volt battery provides up to 60 hours of normal operation. Rechargeable battery provides up to 20 hours on each 6-hour recharge.

Dimensions

Width: 8cm

Thickness: 4.2cm

Length: 41cm

Weight: 400g (without battery)

Accessories

Belt Holster

Charger

Applications

Airports, Sporting Events, Prisons,
Nuclear Facilities, Correctional
Facilities, Transportation Terminals,
Public and Private Buildings, Loss
Prevention, Schools, Corporate
Security, Stadiums/ Concerts,
Historical Landmarks

Product Name:MD1011

Model Name:MD1011

Catalog:Metal Detector

detail:

a high performance Hand Held Metal Detector designed to meet the exact requirements of the security industry. The special design of it's detecting area makes this model has very high sensitivity. It is adopted PC+ABS for mould material, and has functions of durable material, fine workmanship, and easy carry. The distinguishing feature is the streamlined design. Typical uses will include body search for offensive weapons in crowd control, airport and border security, checking parcels and letters for metal objects and anywhere that hidden metal needs to be detected. It can be charged and has powerful functions, low battery indicator, LED with buzzer or vibration alarm. It is a good helper of security detecting.

Function:

- (1) Stramlined, elegant appearance, super sensitivity.
- (2) Detect ferrous and non-ferrous metal.
- (3) 2 kinds of alarm method: buzzer & LED alarm; vibration & LED alarm.
- (4) Adjustable sensitivity, easy use
- (5) Low battery indicator/ Charge Lamp, gives a timely alert
- (6) After installing chargeable battery (*Optional) in the battery compartment, you can charge the device directly.

Components:

A Charger

A Rechargeable Battery

(*Charger and Rechargeable Battery are Optional)

Detection distance:

The sensitivity of the detector is determined primarily by the size, shape and composition of the object to be detected. Typical performance figures are given below:

Object Sensitivity

Pin 30-60mm

One coin 75-100mm

6 inches knife 160-180mm

64model hand gun 180-195mm

Specification:

Power: 9V (6F22) standard or rechargeable battery (*Charger and Rechargeable Battery are Optional)

WENZHOU INTOP INDUSTRY CO.,LTD

Frequency: 25KHz

Voltage: 9V (6F22)

Weight: 225G (without battery)

Size: 37.5(L) X 7.5(W) X 3 (H)cm

Operating Temperature: -15C to +55C

Package:

(1) G.W./Unit: 395g

(2) Size/Unit: 50*9.5*4.5cm

(3) Qty./CNT: 30pcs

Certifications:

RoHs

CE

ISO9001-2000

Product Name:MD3001

Model Name:MD3001

Catalog:Metal Detector

detail:

Introduction:

The High Sensitivity Handset Metal Detector is the upgraded product. The product uses the CMOS-IC to detect the ferromagnetic objects (metal object) more quickly. Compared with the traditional Detector, it adopts more advanced audio-visual alarm and shock alarm with higher detecting sensitivity and more accurate alarm. And it also has more affordable price, more economies power consumption, longer working hours. Meanwhile, the Detector has nice out-look, small in size, light in weight, compactable, convenient in operation, and shock-resistance. So it is an excellent tool to help you to inspect illegal goods.

Application:

It is mainly used in some security inspection such as airport, station, customs, harbor, stadium (gymnasium), public security, frontier guard, safeguard organizations, testing and detection for precious metal (e.g. used in bullion crafts factories, electronic component factories), security inspection in mass assembly and other circumstances requiring security inspection.

Product Name:ME00122 hand Metal Detector

Model Name:ME00122

Catalog:Metal Detector

detail:

Function features:

*It features simple operation, exquisite design, convenient conservation and low failure rate.

*Highly sensitive, it can easily detect pin-sized metal articles (or even smaller metal articles).

*Its sensitivity can be adjusted according to the on-site requirements.

*Indication of low battery voltage (LED light is always on).

*It is praise worthy that its price/performance ratio is higher than other products of the same category.

*There are two kinds of alarms, including sound & light and vibration.

Product parameters:

External dimensions: Length 395 mm*140 mm

Product weight: 20/box, 7.4 kg/box,

Packaging dimensions: 52.5 cmX31.6 cmX37.8 cm

Working power supply: 6F22ND? 9 V battery (alkaline battery, rechargeable battery)

Alarm modes: sound & light, vibration (switch)
